SARA ARMCHAIR OUTDOOR FURNITURE

without comments

From the noted **Italian Furniture** designer Davide Conti arrives the SARA **armchair**, [Outdoor Furniture](#). This **Outdoor Furniture** emanates from the idea of looking for to combine two aspects of living in the garden. One idea is to sit in a chair and then without having contact with the ground, yet on the other hand, to be lying on the floor, thus having complete contact with the grass.

The synthesis of these two ideas creates this [Outdoor Furniture](#) which is low almost at ground level allowing a persons legs and arms under the curves to caress the grass, yet high enough from the grass for someone to unwind in a relaxed armchair. This **Outdoor Furniture** is available from [Davideconti.it](#)
